Ian Solberg

Boston, MA | (603) 306-6959 | ianspraguesolberg@gmail.com | linkedin.com/in/iansolberg | github.com/iasolb | iansolberg.us

EDUCATION

Northeastern University *Boston, MA*
Bachelor of Science in Data Science & Economics *Expected Graduation: Spring 2028*
Achievements: 3.43 GPA, Dean's List
Relevant Courses: Advanced Programming with Data, Monetary and Fiscal Policy, Applied Econometrics, Statistics and Machine Learning for Economics
Activities: Varsity Track and Field, High Jump (2023 – 2025); two-time CAA Championship scorer

EXPERIENCE

Wayfair *Boston, MA*
Print Marketing Analyst Co-op *Through December 2026*

- Develop AI-enabled internal tools and n8n automation workflows that streamline recurring marketing operations
- Extract, validate, and analyze marketing data in BigQuery; build reusable data-cleaning and analysis scripts for recurring reporting

Tall Poppies Group, LLC *Remote*
Software Engineer *Present*

- Built and maintain the Financial Edge Connector, a budget reporting application integrated with Blackbaud Financial Edge and deployed at Vermont Academy and Cardigan Mountain School, giving faculty direct access to their department budgets

Northeastern University *Boston, MA*
Research Computing Research Assistant, Loth Lab *September 2025 – Present*

- Develop interactive dashboards for exploring clinical and bioinformatics data on Chiari Malformation I patients

Edgewater Farm *Plainfield, NH / Remote*
Contract Developer, Database Migration and Progressive Web App *July 2025 – Present*

- Migrated the farm's legacy Microsoft Access data to PostgreSQL
- Developed a progressive web app on a PostgreSQL backend that streamlines data entry for administrators and field staff
- Replaced paper records with digital workflows for inventory, plantings, incoming orders, and retail labels

Dartmouth College Research Computing *Hanover, NH*
Research Software Engineering Intern *June 2025 – August 2025*

- Built the validation pipeline for a research paper, using BERTScore and other natural-language fidelity measures to evaluate LLM-generated synthetic ophthalmology PHI records derived from 200 original and adversarial case inputs
- Served as a Teaching Assistant for the Dartmouth Summer Scholars Data Science course (40+ students)
- Acquired, transformed, and migrated hydrological data for Culvert Crawlers, a Vermont community science program monitoring stormwater infrastructure for drainage maintenance and flood resilience
- Designed the Chainlit frontend for a ticket-intake chatbot on the Research Computing website

PROJECTS

Open-source Python libraries (PyPI): otter, for econometric modeling, diagnostics, and forecasting; fred-loader and census-loader, for programmatic access to FRED and U.S. Census data

SKILLS & INTERESTS

Skills: Python, SQL, PostgreSQL, BigQuery, Git, Docker, n8n, Data Engineering, Streamlit, Panel, NLP, Backend Development, Excel/Microsoft Office, Data Analysis, Technical Writing, Teamwork, Project Management

Additional Interests: Music Production / Audio Engineering, Cooking, Thrifting, Carpentry (intermediate)
